

# Deflux® Reimbursement Guide

## Codes For Reporting Implant Material On Claim Forms

**L8604** Injectable Bulking Agent, Dextranomer/Hyaluronic Acid, Copolymer Implant, Urinary Tract, 1 mL, includes shipping and necessary supplies.

Uniform coding standards require the use of L8604 on all claims related to its use regardless of payer type.

## Diagnosis Codes Commonly Associated With The Use Of Deflux

Providers should report the code that best reflects the reason why each individual patient received the Deflux implant. The following ICD-10-CM codes reflect common reasons for the use of Deflux but do not necessarily imply coverage for these diagnoses.

Providers should always verify coverage with the patient's insurance contractor.

### **N13.7** Vesicoureteral reflux (VUR)

- **N13.70** VUR, unspecified
- **N13.71** VUR without reflux nephropathy
- **N13.72** VUR with reflux nephropathy without hydronephrosis,
  - **N13.721** Unilateral
  - **N13.722** Bilateral
  - **N13.729** Unspecified
- **N13.73** VUR with reflux nephropathy with hydronephrosis,
  - **N13.731** Unilateral
  - **N13.732** Bilateral
  - **N13.739** Unspecified

## CPT® Codes For Reporting Physician And Hospital Services On Claims

**52327** Cystourethroscopy with subureteric injection of implant material

Note: Surgical cystoscopy always includes diagnostic cystoscopy and should not be reported separately.

## Revenue Codes

Revenue codes are used to assign costs to hospital specific accounting centers and are reported on facility claim forms (UB04). The following revenue codes may be appropriate; however, facilities should report the code that is consistent with their own accounting procedures.

**278:** Other Implants (Deflux Syringe and Needle)

**36X or 49X:** General Surgery or Ambulatory Surgery (Implant Procedure)

## Deflux Reimbursement Hotline

**1 844 350 9656**
